

Maritime Security

PROVIDED SERVICES

- **SHIP SECURITY PLAN EVALUATION**
To optimise your SSP with the objective of creating a realistic plan that corresponds to the ISPS code.
- **MARITIME SECURITY TRAINING**
To comprehensively train your crew to enable them to recognise, react to and survive violent incidents.
- **MARITIME SECURITY TEAMS**
To secure your ship with experienced maritime security operators during high risk passages.
- **MARITIME SECURITY SYSTEMS**
To complement your ready detection and protection devices with high standing systems and equipment.

MARITIME SECURITY SOLUTIONS FITTING YOUR COMPANY

Almost 90% of the world's trade is conducted through shipping. This makes cargo an interesting target for piracy. In 2009 48 ships were hijacked of which the majority happened in the Gulf of Aden. To avoid high risk areas such as the Gulf of Aden is usually not a lucrative option. We can provide you with the preparation and execution of a safe passage through high risk areas. Our SSO and CSO qualified personnel can support you

with training and advice. Our experienced maritime security teams have been guaranteeing safe passages through the Gulf of Aden since 2008. This service is guaranteed at all times, in accordance with international law. We would like to take care of your ship and personnel so that you can take care of your customers. We wish you a safe passage!
