

International Travel Security

PROVIDED SERVICES

- **SECURITY PROTOCOLS**
Realistic and detailed protocols to mitigate security risks for travelling personnel, including region specific risk calculations.
- **TRAVEL SECURITY TRAINING**
Experienced specialists training your employees on best practices in the field of international travel security.
- **RISK MONITORING**
Monitoring the actual risk levels for your travellers on overseas operations and extraction of personnel in case of incidents.
- **TRACK & TRACE**
Keeping track of your personnel abroad through an effective system of travel itineraries, e-mails and text messages.

INTERNATIONAL TRAVEL SECURITY SOLUTIONS FITTING YOUR COMPANY

Many nations have traditionally been, first and foremost trade nations aimed at foreign markets. This was the way of the past as it is the way of the future. Many companies today are operating on a global scale, even in countries with a high security risk. These risks vary from heavy crimes e.g. armed robbery and kidnapping to natural disasters and armed conflicts. Fortunately, most of

these risks can be mitigated through thorough preparation. We can provide you with such a service and should, despite a comprehensive preparation, something unfortunate still happen, our specialists will be able to assure a safe return home for your travellers. For information and for emergencies you can contact us at all times. We wish you a safe trip!
